SCHOOL WEBSITE DESIGN SOLUTIONS

About School Site Press

Creating modern & engaging websites for schools & colleges

Who is behind School Site Press?

Hello, my name is Neil Forrester and I am the owner of School Site Press. I ran a successful website design agency for over 12 years and during this time I created sites for many businesses including schools & colleges.

I enjoyed working with my school clients so much, that I decided to create a platform dedicated to creating websites for schools. That platform now delivers purposeful design, functionality & provides our customers with ongoing support.

What would make the perfect school website?

We've spent many hours researching & cross-referencing the best school website designs. We asked school business managers "What would make the perfect school website for you?"

The result – School Site Press

With the answers & research results collated, we were able to develop our exciting school web design platform that delivers excellence on:

1. Graphic design optimisation for user experience.
2. Easy to set up and use.
3. Affordability & payment options.
4. Web hosting, updates & maintenance.
5. Ongoing customer support for no extra charge.
6. No lock-in contract.

School Site Press

Created for primary schools, secondary schools & colleges

School Site Press Platform

Our purpose built school website platform **School Site Press** doesn't hold back when it comes to design, functionality & affordability. It's packed with features every school website wants, and our platform is quick to set up and super easy to use.

School Site Press is customisable. After adding your school's logo, colours & images your site will be unique.

If you're a school website administrator, you'll love using our platform compared to what you already have. The interface is simple and only displays the information you need to get the job done.

Our comprehensive list of tutorials will provide step-by-step instruction on how to administrate your website, but if you're still having difficulties, contact us straight away! Our subscription service includes ongoing customer support by ticket, email, telephone and online meeting to ensure any difficulties are resolved as quickly as possible.

Finally, we take care of all the technical stuff such as web hosting, updates and backups so you only need to focus on adding content to your site.

How It Works

Getting your school set up with School Site Press is easy!

Subscribe

To get set up with School Site Press you need to subscribe for our platform at website <https://www.schoolsitepress.com.au/>

1. Most schools require 3 quotes before choosing a web design agency to work with. If you need a written quote, let us know and we'll provide you with one.
2. Subscription includes our platform, web hosting, maintenance & customer support for a monthly fee of \$350 inc GST (for Australian customers). No lock-in contract.
3. **Your first month is completely FREE.** This allows you test drive our platform without paying a single cent!

Creating your new school website will be a breeze using School Site Press

Create

1. We provide a staging site for you to work on.
2. We'll add your logo, colours and links to any third party providers such as Compass etc.
3. You add the content following our tutorials. Include news articles, events, staff profiles, image galleries and anything else you need!

Publish

1. When your site is ready to be made live, point your domain A Record to our servers. We provide help on this point if you need it.
2. Once the A Records have been updated, allow 24 hours for your new website to be live to the world!

Custom School Website Design

Let us work with you to create something completely unique

I want something else

While we believe our School Site Platform has it all, we also understand that you might want to create something completely unique for your school.

What are the advantages to custom school web design?

There are many advantages to custom website design including unique layouts, mega-menus, galleries etc.

Whatever the case may be, our expert web designers will create something totally unique and elegant for your school!

Customisations may include (but are not limited to) the following:

1. Carousels
2. Sticky headers & footers
3. Hover styles
4. Custom navigation
5. Testimonials
6. Image galleries
7. And more! The list is endless...

What are the disadvantages to custom website design?

The only two disadvantages to custom school web design are **time & budget**.

Custom development takes much longer and this cannot be underestimated. The process is involved and will require a dedicated point of contact at your school to discuss design, functionality and site structure during this phase.

On average it can take up to 8 weeks to create a custom site from scratch. You'll need to be highly organised and provide content in a timely manner when it is required.

In short, a lot more work goes into developing a custom school website which makes the price ticket higher.

If you're looking for an affordable & fantastic alternative our customisable School Site Press platform is an excellent option.

Why Use School Site Press

There are many benefits to you and your school using School Site Press.

Affordability

Our School Site Press platform is competitively priced at only \$350 per month inc GST. We also provide competitive quotes for custom school website design options too.

Professionally designed for schools & colleges

Each School Site Press website is built with WordPress so its likely you'll already be familiar with the user interface. We also use the Divi drag and drop page builder so you can create engaging page layouts in no time.

No more technical headaches

If you are the person responsible for your school's website you no doubt be concerned with maintenance, updates and website security.

With School Site Press you don't need to worry about any of these points again as they are already included with our platform and custom school website solutions.

LiteSpeed Servers

Good website hosting is essential for your site to operate correctly. Each School Site Press website has its own web hosting account with its own resources.

Servers location options are Australia, New Zealand, UK & US. Each web hosting accounts includes 10GB of NVMe storage, unlimited bandwidth, 6GB memory, 400% CPU limit, hourly backups, malware scans and SSL certificate to ensure your pages are https & encrypted.

Never Loose Access To Your Website Again - Ever!

If you ever loose access to your website for any reason please contact us straight away. After our telephone verification check, we'll have you logged back in asap! Only applies to sites hosted with us.
